

School Song:

CENTENARY SCHOOL SONG: 100 YEARS AGO

One hundred years ago in 1898,
Children first came to be taught,
On horseback and on bikes they arrived at the gate,
To read and to write and play sport.

Chorus

*Here's to our school,
On the mountain top.
It's the heart of the mountain we're sure.
Here's to our school,
It's one hundred years old,
May it be here for a hundred years more.*

At the top of the mountain where the trees meet the sky,
And the wedge tailed eagles soar,
Our little school sits where the clouds float by,
And who could ask for more.

Chorus

Each day we arrive in our green and our white,
We're the Middle Kinglake kids,
It might get cold and foggy here but that's all right,
We wouldn't change anything for quids.

Chorus

Many students and teachers have passed through this place,
And so much has changed through the years
With new technology we're setting the pace
So let's give the school three cheers.

Chorus
